Here's what you'll get as a training seminar attendee...

✓ **Advice From One Of The World's Leading Experts**—You'll get practical advice from William Stanek, one of the world's leading technology experts. You'll have opportunities for one-on-one to get personalized advice, and after the seminar, you'll be able to email me for specific advice in the area of your study.

✓ **Learning Focused And Hands-On Instruction**—My unique Test Your Skills reviews and Career Builder exercises reinforce the discussion and help you practice and put to use what you've learned. Just as important, the skills practice is followed by hands-on labs that further serve to reinforce learning, helping to ensure you leave training not only understanding what you've learned but also able to apply it.

✓ **I'll Get You Ready**—Maybe you're not sure you're ready to take your career and your skills to the next level. If so, don't worry—I'll help you! Many of my attendees feel the same way and that's why I'm going to give you plenty of opportunity to succeed. If you complete training and still don't feel confident in your skills, you can even retake the training on another date at 50% off the regular rate*. *This does not apply to Intensive Training. Some restrictions apply to other training courses.

Here's why attending my Training Seminar could be the best decision you ever make!

Over the years, my practical advice has helped millions of people all over the world. I've consulted and worked with the best of the best in computer publishing and education, including Microsoft, Simon & Schuster, Macmillan Digital, Pearson Education, McGraw Hill, and Prentice Hall.

What people have said about my work...

"Author William Stanek is breaking new ground in shaping the future of business … He's one of the gurus … A face behind the future." **– Walter Neary, The Olympian.**

"He's really sharp. He knows what's happening and what is important now." **– Sharon Terdeman, PC Magazine**

"We see a lot of programmers who don't have the technical wherewithal to express themselves … It's a rare pleasure to find someone with superior technical skills and superb communications skills." **– Jonathan Erickson, Dr. Dobb's Journal**

What students have said about my training…

Essential Windows Server 2003 Administration

"5 days of training including air, car and hotel cost me less than $2500. William is an excellent instructor—he is an expert—and he made it fun. He did a great job explaining everything." **– J.S. Chicago, IL**

"I learned more in 5 days than I've ever learned before. William did a great job, not only with presenting the material, but also teaching. Lot's of practice and hands-on as well. I'd definitely recommend this class." **– E.G. Harrisburg, PA**

"This course really was excellent. It was nice to see the course material isn't just the presentation slides used by the instructor. A good balance between lecture, practice and hands-on. The more reinforcement through practice and hands-on the better! I'm looking forward to using what I learned." **K.J. Forest Lake, IL**

Essential Windows XP Administration

"I was very impressed with the class and would recommend it to anyone. William was excellent! Encyclopedic knowledge of all aspects of Windows XP and more. I would recommend him to anyone needing Windows administration training." **E.H. – Tacoma, WA**

"Fantastic, this was a great training opportunity. I finally understand now and would not hesitate to recommend this class to anyone. Very helpful and extremely informative." **– A.R. Washington, D.C.**

"I have taken many training courses over many years, so far this was the best training I've ever had! The presentation was outstanding and William's knowledge of the material is amazing. He really made the material relevant to my on-the-job needs. Very well done!" **– B.T. NY, NY**

Here's what your boss needs to know…

When you complete one of my training seminars, you will have completed one of the most rigorous training courses available. You will have a strong command of the subject that will help you to be more effective and efficient.

If you take an essentials course in Windows Server, Windows desktop, Exchange Server, IIS or SQL Server administration, you will:

- ✓ Get insider tips and expert advice that will save time and money
- ✓ Be able to deploy systems and solutions more effectively
- ✓ Know the fundamentals and the right way to implement and deploy
- ✓ Be able to complete core tasks more efficiently and be able to troubleshoot
- ✓ Know how to optimize architecture, servers and maintain deployed solutions
- ✓ Be able to support users more effectively and better manage user issues
- ✓ Know effective backup and recovery techniques to better safeguard systems and data
- ✓ Know how to proactively monitor server performance, reducing downtime
- ✓ Much, much more…

If you take a course in Active Directory, Group Policy, or Intensive Training, you will:

- ✓ Get insider tips and expert advice that will save time and money
- ✓ Have extensive understanding of the related architecture for planning and deployment in the enterprise
- ✓ Be able to plan, prepare and install the technologies you've studied.
- ✓ Know what the area of study means specifically to your organization's projects
- ✓ How best to manage the related resources in your environment
- ✓ How to optimize your environment with a goal of improving performance and reducing downtime
- ✓ Know optimization techniques, how to size solutions, and how to plan for future needs
- ✓ Know differences among the various techniques and implementation scenarios
- ✓ Better understand security and how to better protect resources
- ✓ Much, much more…

Bottom line:

- ✓ Your training will help your organization save time, money, and resources.
- ✓ You'll take skills and resource materials back to the office that you can share with others.
- ✓ If you have questions after training, you'll be able to email me and get answers.
